

**Emergency Phone** 

# NATIONAL CHEMICAL LABORATORIES, INC.

### **SAFETY DATA SHEET**

	Section 1 - Identification					
Product Identifier	VIVID Interactive Floor Finish Laminator & Maintainer					
Other means of identification	0528					
Recommended use	Polishing compound RTU.					
Recommended restrictions	For commercial and industrial use only.					
Manufacturer / Importer / Supplier / Distributor Information						
Company Name	National Chemical Laboratories of PA, Inc.					
Address	401 N. 10th Street - Philadelphia, PA 19123					
Telephone	1 (215) 922-1200					
Supplier Email	info@nclonline.com					
Contact	CHEM-TEL					

1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash hands after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local authorit	ty requirements.
Hazard(s) not otherwise classified (HNOC)	None known.	

#### Section 3 - Composition/Information on ingredients

Mixture

#### a company to any not have address on any halow required diselecture limits

The components are not hazardous or are below required disclosure limits.

#### Section 4 - First-aid Measures

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.						

# SAFETY DATA SHEET

Fine fielding of town t								
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.							
General fire hazards								
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.							
	Section 6 - Accidental release measures							
Personal precautions, protective	Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.							
equipment and emergency procedures.								
Methods and materials for	This product is miscible in water.							
<ul> <li>containment and cleaning up</li> <li>SMALL SPILLAGE: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residua contamination.</li> <li>LARGE SPILLS: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorbent</li> </ul>								
	vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.							
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.							
	Section 7 - Handling and storage							
Precautions for safe handling	Observe good industrial hygiene practices.							
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).							
	Section 8 - Exposure control/personal protection							
Occupational exposure limits	No exposure limits noted for ingredient(s).							
Biological limit values	No biological exposure limits noted for the ingredient(s).							
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain							
	airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.							
	uch as personal protective equipment							
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.							
Skin protection								
Hand protection	Impervious gloves are recommended for prolonged use.							
Hand protection Other	If use of product risk exposure to contact, wear suitable protective clothing.							
Hand protection Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.							
Hand protection Other Respiratory protection Thermal hazards	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.							
Hand protection Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.							
Hand protection Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,							
Hand protection Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.							
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. <b>Section 9 - Physical and chemical properties</b> Liquid.							
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Liquid. Opaque Liquid.							
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Liquid. Opaque Liquid. White.							
Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. ## **SAFETY DATA SHEET**

Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	Soluable.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition	No hazardous decomposition products are known.
Products	

#### Section 11 - Toxicological information

	Section 11 - Toxicological information
Information on likely routes of e	xposure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.
Information on toxicological effe	ects.
Acute toxicity	Not expected to be acutely toxic.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not classified.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Mobility in general	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.
Waste from residues / unused products	Dispose in accordance with all applicable regulations.
