

# Make It Better

Solutions That Can Help Improve  
Efficiency, Hygiene, and Sustainability

WASHROOM

PERFORMANCE  
AT WORK™

# Make It Better

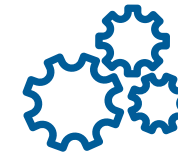

You're constantly reviewing your products and processes to make things faster, safer, stronger, and last longer. We share that mindset. GP PRO solutions are designed to do far more than just save you money. They'll help you do what you do every day—**by helping improve efficiency, hygiene, and sustainability while helping reduce your total cost of ownership.**

## INCREASED HEALTH AND SAFETY OF EMPLOYEES

GP PRO solutions contribute to a clean and safe work environment by promoting hygiene and helping reduce cross contamination.

- Closed systems help prevent exposure to germs and bacteria
- Touch-free solutions help reduce cross-contamination in washrooms and production areas
- Disposable wipers help keep employees safe from hazardous metals and other residual materials that can often be found in rental shop rags and towels\*\*

## INCREASED PRODUCTIVITY

GP PRO solutions help reduce the labor needed for some tasks while also increasing how quickly they can be accomplished—helping improve the efficiency and effectiveness of your workforce.

- Dispensers designed to be refilled quickly and easily
- Higher capacity solutions keep refills to a minimum so employees can stay focused on higher priority tasks
- The availability and placement of disposable wipers can reduce the time employees spend walking to and from rental shop towel bins

## LOWER TOTAL COST OF OWNERSHIP

GP PRO solutions can help reduce your overall costs by helping control how much product gets used, how much goes wasted, and how much you spend directly and indirectly compared to other industry solutions.

- One-at-a-time dispensers help minimize usage and waste
- Adjustable settings for dispensers allow you to control sheet length
- Disposable wipers can be a more cost-effective solution than rental shop towels for some companies when rental, replacement, and other costs are factored in

## SUPPORT YOUR SUSTAINABILITY COMMITMENT

GP PRO solutions can help reduce waste and your company's environmental footprint. Our EcoSmart™ program can support your company's commitment to sustainability.

- One-at-a-time dispensing for many GP PRO products helps minimize waste by allowing users to take just what they need
- Many products contain recycled fiber content and meet or exceed EPA Comprehensive Procurement Guidelines
- GP PRO has received third-party certifications on many of our products, such as Green Seal™ Standard GS-1, UL ECOLOGO® Certification and Sustainable Forestry Initiative® certification standard

# Georgia-Pacific® Industrial Hand Cleaner System

Hygienic system helps protect your workforce—and your bottom line.

## WHAT IT IS:

Industrial and heavy duty soap with touchless and manual dispensers.<sup>1</sup>

## WHY IT MATTERS:

10-15 percent of all occupational illness is caused by skin disease<sup>1</sup>. Lost workdays and loss of productivity due to occupational skin diseases may cost businesses up to \$1 billion annually.<sup>2</sup>

## How you benefit

### INCREASED HEALTH AND SAFETY OF EMPLOYEES

Closed, hygienically-sealed soap cartridges help reduce contamination compared to open systems. Touch-free solutions help reduce cross-contamination in washrooms and production areas.

**LOWER TOTAL COST OF OWNERSHIP** Controlled dispensing helps reduce waste and lower operating costs.

**PRODUCT FEATURE** High-capacity cartridges keep refills to a minimum. Dispensers designed to be refilled quickly.

<sup>1</sup>U.S. Bureau of Labor and Statistics.  
<sup>2</sup>Centers for Disease Control and Prevention.

# Brawny® Professional FLAX Cloths

Disposable cloths that meet your performance expectations.

## WHAT IT IS:

Four weights of disposable cloths for industrial use.

## WHY IT MATTERS:

Rags and rental towels may be contaminated with heavy metals and metal pieces and incur extra fees. Many disposable cloths sacrifice absorption, strength, and feel.\*\*

## How you benefit

### INCREASED HEALTH AND SAFETY OF EMPLOYEES

Disposable wipers help keep employees safe from hazardous metals and other residual materials that can often be found in rental shop rags and towels.\*\*

**INCREASED PRODUCTIVITY** Helps reduce the time employees spend getting and returning rental shop towels from storage bins. Plus, FLAX towels absorb 45% more water, at a 28% faster rate<sup>3</sup>. Flax towels also absorb 23% more oil, at a 38% faster rate<sup>3</sup>.

**LOWER TOTAL COST OF OWNERSHIP** Can be more cost-effective than rental shop towels for some companies when rental, replacement, and other costs are factored in.

**SUPPORT YOUR SUSTAINABILITY COMMITMENT** Made from 100% plant-based sustainable material (e.g., flax plants, one of the world's oldest sources of food and fiber crops). A USDA certified biobased product. Certified as compostable in industrial facilities by BPI.<sup>4</sup>

\*\*Gradient Corporation, "Evaluation of Potential Exposure to Metals in Laundered Shop Towels," 2003, 2010)

<sup>3</sup> Need only 3 FLAX 900 Cloths to absorb same amount of water as 5 Kimberly-Clark Wypall® X80 wipers (9.1 in. x 16.8 in.). Need only 4 FLAX 900 Cloths to absorb same amount of oil as 5 Kimberly-Clark Wypall® X80 wipers (9.1 in. x 16.8 in.).  
<sup>4</sup> BPI® certified as compostable in commercial composting facilities. Such facilities may not exist in your area. BPI® is a trademark of the Biodegradable Products Institute. [www.bpiworld.org](http://www.bpiworld.org)

# enMotion® Flex Automated Towel Dispenser and enMotion® Soap Dispensers

Dispensers that combine increased hygiene, efficiencies, and reduced waste.

## WHAT IT IS:

A variety of automated touchless towel, soap, and sanitizer dispensers.

## WHY IT MATTERS:

Manufacturing facilities tend to have lots of people coming and going: employees, customers, and vendors. Touchless dispensing helps minimize cross-contamination risk and creates a more hygienic environment. Plus, with enMotion® Flex Paper towel dispenser, Dual Roll Auto-Switch Technology means one **roll is consumed 100%** before the dispenser auto-switches to the other. The result is **zero waste** and improved efficiencies.

## How you benefit

### INCREASED HEALTH AND SAFETY OF EMPLOYEES

Touchless one-at-a-time dispensing helps minimize cross-contamination.

### INCREASED PRODUCTIVITY

Dual Roll Auto-Switch Technology and high capacity dispenser require refills less often. Lights make it easy to know when a refill is needed.

### LOWER TOTAL COST OF OWNERSHIP

One-at-a-time dispensing helps reduce waste and lower operating costs. Dispensers feature a 10-year warranty.

### SUPPORT YOUR SUSTAINABILITY COMMITMENT

Reduces usage by up to 30% compared to standard folded towels. Some enMotion® towels are UL ECOLOGO® certified for reduced environmental impact, and many have other third-party certifications.

# Compact® Coreless Bathroom Tissue Dispenser System

Less waste. And less wasted time.

## WHAT IT IS:

A line of dispensers and tissue that helps minimize roll changes and storage costs.

## WHY IT MATTERS:

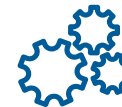

Compact® Coreless bathroom tissue dispensers can make 119 tons of paper and packaging disappear from your waste stream each year.<sup>5</sup>

## How you benefit

### INCREASED HEALTH AND SAFETY OF EMPLOYEES

Design minimizes placement of unsanitary objects on top of the dispenser.

### INCREASED PRODUCTIVITY

Improved design makes it easy to load rolls. Reduces storage requirements by up to 50 percent by eliminating bulky cardboard packaging.

### LOWER TOTAL COST OF OWNERSHIP

Helps control labor costs by dispensing two large diameter coreless bath tissue rolls that allow for nearly 100 percent utilization. Locking cabinet helps prevent theft. Dispensers feature a 10-year warranty.

### SUPPORT YOUR SUSTAINABILITY COMMITMENT

Reduces waste by eliminating cardboard cores, inner wraps and outer corrugate. Helps eliminate stub roll waste. Some tissue options are UL ECOLOGO® certified for reduced environmental impact, and many have other third-party certifications.

<sup>5</sup> Based on using 28,000 cases of coreless tissue per year.
