

PROTECTIVE INDUSTRIAL PRODUCTS

## It's all about choice.

PIP offers convenient foam ear plugs designed to provide superior comfort and noise-blocking performance.

PIP ear plugs feature PowerSoft™ polyurethane foam that fit snugly in any ear canal and deliver all day comfort to ensure employees receive the right fit and protection.

## The facts.

> Ear canals are like fingerprints – unique to everyone.

Foam ear plug are the most popular choice of hearing protection in the workplace because they are versatile and economical.

> Recovery time is critical.

Optimal rebound time is critical to achieve a proper acoustic seal in both ear canals. Ear plugs that rebound too fast do not fit consistently in both ears. Ultimately, the worker spends needless time attempting to achieve consistent acoustic seals for both ears.

> Many don't properly roll-down ear plugs.

The correct use of ear plugs is critical to ensure optimal hearing protection. Improper use can minimize the effectiveness of the hearing protection properties.

### CHOOSING THE CORRECT PROTECTION

The key to achieving optimal protection is selecting the ear plug size, shape and style suitable for each worker.

#### BULLET

Fits to the natural contour of the ear canal.

#### FLARE

Wide base seals out dirt and debris.

#### T-FIT

Designed for easy handling, fit and long-term wear.

#### SoftStar

Cylinder design is a proven favorite for many workers.

#### EZ-Twist

Combines comfort with convenience, hygiene and ease-of-use.

## Ear plug dispenser and refill packs

Wall-mounted dispenser holds 500 ear plugs (not included)

Simple to open and fill dispenser for foam ear plug refill packs; for use with:  
> 267-HPF210-1 / Mega Bullet / 32 NRR  
> 267-HPF310-1 / Nano Bullet / 28 NRR

Refill pack 250 pair

POWERSOFT™ SERIES FOAM EAR PLUGS

# MAXIMUM COMFORT

www.pipusa.com

PowerSoft™  
FOAM TECHNOLOGY

Soft and comfortable  
**SUPERIOR PROTECTION**

## Choices for all workers

Comfort is essential to ensure maximum protection. It is important to consider all features that make one ear plug work differently than another. PIP makes it easy to compare. By offering advanced shapes, sizes and styles, we are sure to meet your needs.

All workers want:  
**PROTECTION, COMFORT and EASY FIT.**

## PowerSoft™ FOAM TECHNOLOGY

PowerSoft™ Foam Technology is a proprietary polyurethane foam formulation that results in ear plugs with optimally-sized cell structure that expand gently and evenly inside the ear canal. This translates to all-day comfort with excellent attenuation.

## Getting a proper fit

Foams with small, dense cells may result in:  
> Harder plugs with shorter rebound time  
> More pressure and discomfort in ear canal

Foams with large, airy cells may result in:  
> Uneven roll-down and longer time to fit  
> Longer rebound time

### PIP EAR PLUGS WITH POWERSOFT™ FOAM TECHNOLOGY DELIVER:

- > Optimal rebound
- > Maximum all-day comfort
- > Perfect fit

## MEGA BULLET™ 32 NRR

Tapered shape for easy installation

- Regular size fits most ear canals
- Easy roll down for quick and easy insertions
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort
- Shape conforms to most ear canals for maximum sound attenuation
- Traceable metal detectable (Blue) style available for use in the food industry

### ATTENUATION CHART (ANSI S3. 19-1974, Canada Class A(L))

## NANO BULLET™ 28 NRR

Smaller tapered shape designed to fit narrow ear canals

- Designed to accommodate smaller ear canals
- Easy roll down for quick and easy insertions
- Non-irritating smooth outer surface
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort

### ATTENUATION CHART (ANSI S3. 19-1974, Canada Class A(L))

## MEGA FLARE™ 32 NRR

Flared bell shape allows easier insertion and removal

- Design resists backing out of ear
- Non-irritating smooth outer surface
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort
- Shape conforms to most ear canals for maximum sound attenuation

### ATTENUATION CHART (ANSI S3. 19-1974, Canada Class A(L))

## MEGA T-FIT™ 32 NRR

"T" shape is ideal for smaller or oval shaped ear canals

- Wide base allows easier insertion and removal
- Design resists backing out of ear
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort
- Shape conforms to most ear canals for maximum sound attenuation

### ATTENUATION CHART (ANSI S3. 19-1974, Canada Class A(L))

## SoftStar™ 30 NRR

Softest most comfortable cylinder-shaped ear plug

- Unique beveled edge helps insertion
- PVC\*-free PowerSoft™ Foam polyurethane foam
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort
- Shape conforms to most ear canals for maximum sound attenuation

### ATTENUATION CHART (ANSI S3. 19-1974, Canada Class A(L))

## EZ-Twist™ 30 NRR

Hybrid foam plug and unique stem enable easy insertion

- No need to roll down before fitting, ideal for use with dirty hands
- PowerSoft™ Foam Technology features a proprietary polyurethane formulation that delivers optimal recovery time, easy insertion and maximum all-day comfort
- Shape conforms to most ear canals for maximum sound attenuation
- Traceable metal detectable (Blue) style available for use in the food industry
