## enMotion® Flex Paper Towel System

### A roll is **always on stand-by**

Welcome to a new age of zero waste and jam-free design. Introducing GP PRO's enMotion® Flex Paper Towel System. Its Dual Roll Auto-Switch Technology consumes the smallest roll first, and allows for 100% utilization of each roll before it switches to the roll on stand-by. That means ZERO waste. The intuitive design of the enMotion Flex dispenser makes it easy to train staff—and helps make refilling easy.

### EFFICIENCY

From the brand that delivers 99% jam-free dispensing. Auto-feed grabs and guides towels.

### WASTE REDUCTION

Dual Roll Auto-Switch Technology means one roll is consumed 100% before dispenser auto-switches to the other. The result is zero waste.

### DEPENDABILITY

Auto-switching rolls virtually wipe out jams and run-outs and make users happy with a towel every time.
