

# NATIONAL CHEMICAL LABORATORIES, INC.

# **SAFETY DATA SHEET**

	Section 1 - Identification				
Product Identifier	NU-LOOK Wood Floor Cleaner / Conditioner				
Other means of identification	0939				
Recommended use	Floor cleaner.				
Recommended restrictions	For commercial and industrial use only.				
Manufacturer / Importer / Supp	lier / Distributor Information				
Company Name	National Chemical Laboratories of PA, Inc.				
Address	401 N. 10th Street - Philadelphia, PA 19123				
Telephone	1 (215) 922-1200				
Supplier Email	info@nclonline.com				
Contact	CHEM-TEL				
Emergency Phone	1 (800) 255-3924				
	Section 2 - Hazard(s) Identifica	tion			
SDS Hazards and	d Warnings are based on the undiluted product. Refer to diluted SDS	-	d Warnings.		
		egory			
Physical Hazards	Not Classified				
Health Hazards	Serious eye damage/eye irritation	L			
OSHA defined hazards Label Elements	Not Classified.				
Hazard Symbol	$\wedge$				
Signal Word	Danger				
Hazard Statement	Causes skin irritation. Causes serious eye damage.				
Precautionary statement Prevention	Wash thoroughly after handling. Wear protective gloves. Wear eye,	face protection.			
Response	If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with present and easy to do. Continue rinsing. Immediately call a poison advice/attention. Take off contaminated clothing and wash before r	center/doctor. If skin irritatior			
Storage	Store away from incompatible materials.				
Disposal	Dispose of waste and residues in accordance with local authority re-	quirements.			
Hazard(s) not otherwise classified (HNOC)	None known.				
	Section 3 - Composition/Information on	ingredients			
Mixture					
Hazardous Components	Ingredient Name	CAS #	%		
	9-octadecenoic acid (z)-, compd. with 2-aminoethanol (1:1)	2272-11-9	5 - 10		
	D-Glucopyranose, oligomers, decyl octyl glycosides	68515-73-1	1 - 5		
	Section 4 - First-aid Measure	es e			
Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a posi symptoms develop or persist.	tion comfortable for breathin	g. Call a physician if		
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.				
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Continue rinsing. Get medical attention immediately.	Remove contact lenses, if pre	esent and easy to do.		
Ingestion	Rinse mouth. If ingestion of a large amount does occur, call a poisor irritation develops and persists.	n control center immediately.	Get medical attention if		
Most Important symptoms /effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redn including blindness could result. Skin irritation. May cause redness a	-	n. Permanent eye damage		

Indication of immediate medical attention and special treatment	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushir remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Kee victim under observation. Symptoms may be delayed.
General Information	Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and tak precautions to protect themselves. Wash contaminated clothing before reuse.
	Section 5 - Fire-fighting measures
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear
equipment and emergency procedures.	appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.
Methods and materials for	This product is miscible in water.
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water .
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not get this material in contact with eyes. Avoid contact with eyes, skin, and clothing. Provide adequate ventilation. Wash hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage,	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene
Conditions for safe storage,	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
Conditions for safe storage, including any incompatibilities Occupational exposure limits	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Section 8 - Exposure control/personal protection
Conditions for safe storage, including any incompatibilities Occupational exposure limits Biological limit values Appropriate engineering	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). Section 8 - Exposure control/personal protection No exposure limits noted for ingredient(s).
Conditions for safe storage, including any incompatibilities Occupational exposure limits Biological limit values Appropriate engineering	hands thoroughly after handling. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). <b>Section 8 - Exposure control/personal protection</b> No exposure limits noted for ingredient(s). # Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Peroxides. Phenols.
Hazardous Decomposition	No hazardous decomposition products are known.
Products	

#### **Section 11 - Toxicological information**

Information on likely routes of exposure			
Ingestion	May be harmful if swallowed.		
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.		
Skin contact	Causes skin irritation.		
Eye contact	Causes serious eye damage.		
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain.		
Information on toxicological effe	cts.		
Acute toxicity	Not expected to be acutely toxic.		
Skin corrosion/irritation	Causes skin irritation.		
Serious eye damage/ eye irritation	Causes serious eye damage.		
Respiratory sensitization	This product is not expected to cause respiratory sensitization.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	Not classified.		
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.		
Specific target organ toxicity - single exposure	Not classified.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not classified.		
Chronic effects	Prolonged exposure may cause chronic effects.		

	Section 12 - Ecological Information		
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large frequent spills can have a harmful or damaging effect on the environment.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulative potential	No data available.		
Mobility in soil	No data available.		
Mobility in general	No data available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine		

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

#### **Section 13 - Disposal considerations**

Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.
Waste from residues / unused products	Dispose in accordance with all applicable regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

#### Section 14 - Transport information

DOT	Not regulated as dangerous goods.
ΙΑΤΑ	Not regulated as dangerous goods.
IMDG	Not regulated as dangerous goods.
Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code	This substance/mixture is not intended to be transported in bulk.

#### Section 15 - Regulatory Information
