Your Business, Our Bags, Problem Solved

ELKAY PLASTICS CO., INC.

# The Elkay Advantage

With over *40 years of experience*, Elkay Plastics is the partner that can help grow your poly bag business. Elkay Plastics is the leader in poly packaging for the Industrial, Foodservice and Healthcare segments of the packaging industry, with the highest quality and widest selection of poly products available anywhere for immediate shipment from one of our eight warehouses nationwide.

Some of the advantages that Elkay Plastics brings to your business are:

- **Over 2800 Poly Bag Products**

Elkay has the widest selection of poly bag products in stock, including a large variety of specialty and industry-specific items for the Foodservice and Healthcare industries. Elkay works hard to ensure that all of our products are compliant with relevant industry and regulatory requirements, so you can sell Elkay products with confidence.

- **Eight Fully-Stocked, Strategically-Located Warehouses**

Elkay Plastics has an unmatched nationwide presence, with eight distribution centers located in Los Angeles, San Francisco, Seattle, Denver, Dallas, Atlanta, Chicago and Philadelphia ready to serve you. Each of these fully stocked warehouses can ship items within three hours of order receipt, ensuring that items arrive promptly. Many of our customers utilize this capability to their advantage, placing "Just-In-Time" orders and stocking fewer products in their locations.

- **Manufacturing Partnerships**

Elkay Plastics has exclusive strategic partnerships with a number of converters and extruders worldwide. Elkay Plastics makes significant investments in these partner companies in the form of capital, raw materials and managerial support. In return, our suppliers are required to meet Elkay's stringent product and quality specifications.

- **ISO9001:2008 Registered Processes**

Elkay maintains ISO9001:2008 compliant processes to ensure quality product and maintain high levels of customer satisfaction.

- **Clear Labels and Bar-Coded Cartons**

Elkay's clear and consistent labeling helps your warehouse run more efficiently.

- **Inner Dispenser Packs of 100 Bags each**

Virtually all of Elkay's bags 15" and under are packed in inner dispenser packs for cleanliness, convenience and to help reduce waste. It's a clear sign of quality that your customers will recognize and appreciate.

- **Custom Manufacturing Capabilities**

Whether it's a small quantity of printed bags that are needed quickly or a large run of custom-configured bags, Elkay has the ability to meet your needs and exceed your expectations.

- **The Elkay Distributor's Advantage: [www.elkayplastics.com](http://www.elkayplastics.com)**

Elkay distributors know they can depend on our website, [www.elkayplastics.com](http://www.elkayplastics.com), to find the latest products and product information, place orders, obtain custom quotes and place custom orders, track orders, view invoices and more.

- **Elkay's exclusive e-Brochure feature**

Elkay Distributors can access our exclusive e-Brochure feature on [www.elkayplastics.com](http://www.elkayplastics.com), where they can create and print customized product literature. e-Brochure allows the user to select individual items or groups of items, decide whether or not to display pricing and even apply a markup if desired. Distributors can insert their own logo and choose from various theme colors, and can also insert custom messages for a truly personalized message to their customers.

- **Low Order Minimums**

Elkay distributors can order smaller quantities more frequently and maintain lower inventory levels in their warehouse.

- **Elkay Sales Consultant**

In addition, direct field sales support is provided through your Elkay Sales Consultant, who is ready to be an important extension of your sales force. They are available for analysis and advice regarding products, markets, bag applications, product training and end-user sales calls.

Please visit [www.elkayplastics.com](http://www.elkayplastics.com) for the most current product information.

# green statement

As a leading supplier of flexible plastic packaging products, Elkay Plastics Co., Inc. is well aware that plastic products, if disposed of carelessly, can negatively impact the environment. The reality of the situation is that all commercial products present harmful externalities to the environment if not properly disposed of.

Responding to this challenge, many environmental advocates nationwide target plastic bags as an environmental problem while promoting alternatives such as paper bags or biodegradable and compostable materials as more “environmentally friendly.” Contrary to popular belief, each of these alternative materials presents specific environmental challenges that make them a less sound ecological choice than properly recycled plastic bags.

It is the belief of Elkay Plastics that the only feasible and effective option that will have a positive impact on protecting the environment in the near term is the recycling of plastic bags. Plastic bags are fully recyclable products. There is a high demand for reprocessed and recycled plastics, which can be used for products such as railroad ties, decking, and recycled plastic bags. The plastic recycling program is currently gaining momentum and has a record of success where it is implemented.

Elkay Plastics strongly believes that a drive to place recycling bins nationwide coupled with a stalwart educational effort can significantly reduce environmental degradation caused by plastic bags on a national scale. Our goal is to work with manufacturers, other plastic bag distributors, downstream distribution channels and end users to spread awareness of the benefits of plastic recycling and help implement programs that place conveniently located recycling and processing facilities nationwide.

Elkay Plastics promises to explore all possible alternatives that will allow us to provide the same high quality products to end-users while promoting a clean and healthy environment.

Louis Chertkow

CEO, Elkay Plastics Co., Inc.

# BAG MATERIALS

**Polyethylene Bags :** These are the most common plastic bags. Elkay polyethylene bags are made from virgin materials, so they comply with USDA and FDA requirements for use in food applications. A wide selection of sizes and gauges are available to meet virtually any need you might have.

Available in the following bag styles:

- Flat
- Gusseted
- Tubing
- Seal Top
- Header Pak®
- Kwik-Fill®
- Covers & Tarps
- Trash Bags
- Mattress Bags
- Utility Bags on Rolls
- Drawstring

**Tuf-R® Linear Low Density Bags :** Made from a unique blend of linear low density and low density resins that often allows a thinner gauge bag to provide the same or better strength and puncture resistance as a standard low density bag of a higher gauge. Meet FDA and USDA requirements for food use.

Available in the following bag styles:

- Flat
- Gusseted
- Kwik Fill® Bags on Rolls

**Polypropylene Bags :** Polypropylene bags have long been the premier choice for outstanding product presentation and to preserve freshness. Excellent clarity, vapor and moisture barrier properties. Meet FDA and USDA requirements for food use.

Available in the following bag styles:

- Flat
- Gusseted
- Seal Top
- Drawstring

**High Density :** High molecular weight, high density film makes these bags strong and durable, ideal for shopping bags. Several of these bags are packaged in a low cube dispenser carton that is easy to use at the retail counter and stores easily on shelves. Meet FDA and USDA requirements for food use.

Available in the following bag styles:

- Merchandise bags
- T-Shirt bags
- Trash can liners
- Utility Bags on Rolls

## STATIC CONTROL BAGS

**Pink Anti-Static :** Pink Anti-Static bags are an excellent choice when static control is necessary, but Faraday Cage Protection is NOT required. They effectively eliminate the hazard of static damage to sensitive electronic components during packaging, storage and shipping.

Available in the following bag styles:

- Flat
- Seal top
- Tubing

**Strato Grey™ :** Buried metal construction provides double protection against static discharge. Amine/amide-free interior with semi-transparent material allows for protection and easy identification of contents. Meets the electrostatic requirements of MIL B-81705 Type 3.

Available in the following bag styles:

- Flat
- Seal top

## Some things are forever. Your T-Shirt Bag doesn't have to be one of them.

Elkay Plastics has T-Shirt Bags, Take Out Bags and Merchandise Bags that are made with Symphony's d<sub>2</sub>w Controlled-life technology. Thanks to d<sub>2</sub>w, the bag will have a much shorter life than ordinary plastic if exposed to oxygen in the open environment.\* Products made with the d<sub>2</sub>w additive are FDA compliant for food contact, and are fully recyclable with regular plastic. Elkay and Symphony recommend the recycling of all plastic bags when facilities are available.

Put this remarkable technology to work for you today and enjoy a cleaner tomorrow.

*Please dispose of all waste responsibly.*

*\* Timescale depends on environmental factors and may not necessarily be less than a year. Not for composting.*

**Controlled-life  
Plastics**

# Section 1 TUF-R® PERFORMANCE RATED BAGS

## Section 1 TUF-R® PERFORMANCE RATED BAGS

### TUF-R® BAGS - LOWER COST without sacrificing PERFORMANCE!

Use a lighter gauge Tuf-R® bag instead of a heavier gauge LDPE bag for real cost savings and lower environmental impact. Elkay's Tuf-R® bags perform as well as or better than heavier gauge low density bags thanks to their unique resin blend. Put them to the test today and discover how much money you can save with Tuf-R®.

Compare Tuf-R® bags and it's easy to see the difference:

- Tuf-R® bags have superior strength that allows a lighter gauge Tuf-R® bag to do the job of a heavier gauge LDPE bag.
- Tuf-R® bags have superior clarity thanks to their unique resin blend.
- Because Tuf-R® bags are bottom sealed and not side sealed like some competitor's bags, they have the strength you need for your most demanding applications.
- Tuf-R® bags 15" wide and under are packaged in inner packs of 100 bags each for convenience and cleanliness and to reduce waste.
- Cases and inner packs are bar coded and clearly labeled for easy identification.

	LDPE:	Tuf-R®:	Potential Cost Savings:

## TUF-R® BAGS

### the **STRONG,** **ECONOMICAL** **CHOICE**

Use a lighter gauge Tuf-R bag instead of a heavier gauge LDPE bag for real cost savings and lower environmental impact. Elkay's Tuf-R® bags perform as well as or better than heavier gauge low density bags thanks to their unique resin blend. Put them to the test today and discover how much money you can save with Tuf-R®.

This table shows the performance and potential cost savings relationships between Tuf-R® and LDPE:

	LDPE:	Tuf-R®:	Potential Cost Savings:
<b>GUSSET BAGS</b>	.9 - 1.25 mil	6G or 7G Standard	25% or More!
	1.25 - 2 mil	8G Heavy	
<b>FLAT BAGS</b>	1.25 - 1.5 mil	7F Standard	15% or More!
	2 - 3 mil	8F Heavy	
	3 - 4 mil	9F Extra Heavy	

Savings results may vary greatly. Customers should test and verify the appropriateness of any packaging material. Elkay cannot guarantee the performance of any of our products for any specific application. Samples are available upon request.

## Section 2 POLYETHYLENE GUSSET BAGS

INDUSTRIAL

## Section 2 POLYETHYLENE BAGS

### POLYETHYLENE GUSSET BAGS

- Select the right material for the job. See page 3
- LLDPE: Linear Low Density Polyethylene** Elkay's exclusive Tuf-R® bags provide extra strength and impact resistance that allows a lighter gauge Tuf-R® bag to do the same job as a heavier gauge LDPE bag.
- LDPE: Low Density Polyethylene** Provides excellent protection for everyday use at a great price.
- Made from seamless tubing and are bottom sealed for extra strength, with no slits or side seals
- Bags 15" wide and under come in dispenser packs of 100 for cleanliness and convenience
- Meet FDA requirements for use in food applications
- Any size not listed can be custom made to your specifications. See page 40 for more information

## LEAK PROOF BAGS (with EVA Additive)

- Elkay Leak-Proof bags provide an excellent alternative to LDPE bags in many applications, especially for containing liquids or for use in low-temperature environments.
- Special EVA additive to prevent leakage
- Extra seal strength
- Increased puncture resistance
- Freezer-safe

Visit the all new [elkayplastics.com](http://elkayplastics.com) website today and see how Elkay makes it easy to:

- Get the latest product information
- Place an order, track an order, review your pricing and more
- Search for product by size, material, gauge, keyword and more
- Select products and create a customized e-brochure with your company contact information and logo
- Download the latest product catalogs
- And much, much more!

**Your business, Our bags, Problem Solved!**

**Section 3 POLYETHYLENE TUBING**

**LOW DENSITY POLYETHYLENE TUBING**

- 100% virgin low density polyethylene
- Treated to allow for printing
- Meets FDA requirements for food use
- Excellent for packaging products of varying lengths
- Supplied on 12" diameter rolls (3" core)

### Section 4 KWIK-FILL® PRE-OPENED BAGS

#### AUTOMATIC BAGS ON ROLLS

- Kwik-Fill® bags are made with Elkay's exclusive Tuf-R® resin for added strength
- Bags are from seamless tubing and bottom sealed for extra strength, no side slit seals
- Industry standard core makes them compatible with all automatic packaging equipment
- Precise perforations for proper bag performance with automated equipment
- Can be used in manual packaging operations
- Meets FDA requirements for food service applications

### NEED A SPECIAL BAG?

*With Elkay, it's no problem!*

Whether it's custom printing, a special size or a unique configuration, **Elkay can handle it!**

Regardless of whether you need a few thousand bags or millions, Elkay can provide the best quality and outstanding service at an extremely competitive price.

See page 40 for more information, call us at **(800)809-8393** or visit **elkayplastics.com** to discover more about our complete custom capabilities.

## Section 5 RECLOSABLE BAGS

- Bags are packed in inner dispenser packs of 100 bags each for cleanliness and convenience
- Meet FDA requirements for use in food applications
- Any size not listed can be custom made to your specifications. See page 40 for more information

**How To Measure For:**

**DRUM LINERS**

Width = (the circumference of the drum divided by 2) + 2". It is easiest to use a flexible tape measure and measure around the widest part of the drum.

Length = (height of the drum + the width [diameter]) + 4". The extra 4" provides the extra material to fold over or tie the bag.

**BOX LINERS**

Width = (the circumference of the box divided by 2) + 2". The circumference equals the sum of the length of each side.

Length = ½ the narrow width + the height of the box. Add 5" to 8" extra material for fold over or tie off.

**PALLET COVERS**

Width = (the circumference of the pallet divided by 2) + 4". The circumference equals the sum of the length of each side.

Length = (1/2 the narrow width of the load + the height of the load) + 2".

## Poly Bag Dimensions

The first dimension stated when describing a poly bag is the width. All bag measurements are inside diameter (ID).

BAG TYPES	ORDER OF MEASUREMENTS
Flat Bags	Width X Length plus gauge
Side Gusset Bags	Width X Gusset X Length plus gauge
Bottom Gusset Bags	Width X Length X Gusset plus gauge

## Types of Materials & Additives

### LOW DENSITY

- Virgin low density polyethylene complies with FDA and USDA requirements for use with food.
- Fractional Melt improves strength in cold temperatures.

### LINEAR LOW DENSITY POLYETHYLENE

- Stronger than low density polyethylene and puncture resistant. Complies with FDA and USDA requirements for use with food.

### HIGH DENSITY POLYETHYLENE

- For use in retail and industrial applications.

### POLYPROPYLENE

- Preserves freshness with vapor and moisture barriers. Excellent clarity for product presentation.

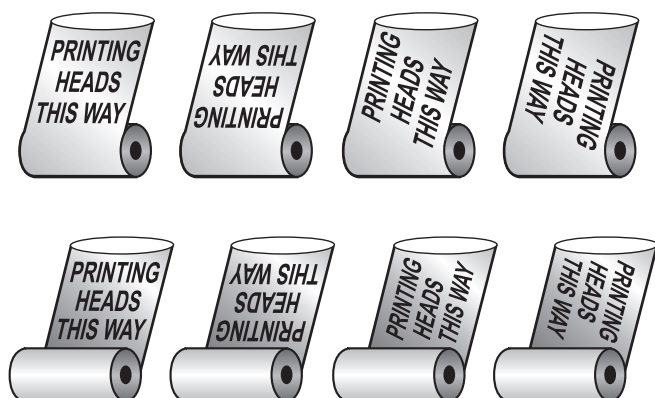

### STATIC SHIELDING

- Buried metal construction provides Faraday Cage protection.

### ADDITIVES

- **Metalocine:** Adds strength and flexibility. High thermal stability.
- **EVA:** Adds strength and improves seal ability. For use in cold temperatures to prevent breakage of the bag.
- **Slip:** Reduces slippage when bags are stacked. Used in mattress bags, etc.
- **Anti-Static:** Protects static sensitive products. Amine-free or regular.
- **Ultraviolet Inhibitor (UVI):** Prolongs the life of the bag when exposed to sunlight. Used in pallet covers, tarps, etc.

THE DIAGRAM BELOW ILLUSTRATES THE PRINTED SURFACE AND DIRECTION OF PRINTING WITH REFERENCE TO THE BAG OPENING.

## Manufacturing Designs

**BOTTOM SEAL:** These bags are cut individually from seamless tubing and are sealed at the bottom of both flat and gusset bags. This is the strongest seal available and is suggested for bags with heavy-duty uses.

**SIDE SEAL (SIDE WELD):** These bags are made from folded polyethylene sheeting, sealed on each side. This seal (or weld) can be used on flat and gusset bags and is suggested for retail uses.

**BAGS ON PERFORATED ROLLS:** These bags are made on a continuous roll of seamless tubing perforated at specified intervals for ease in tearing the bag off the roll. The "top" opening can be above or below the perforation. This storage configuration takes minimum storage space and is routinely used for bin liners, pallet covers and very long bags. Kwik-Fill® pre-opened bags are suitable for automated bag-filling machines.

**BACK SEAL:** For these bags, polyethylene sheeting is folded and sealed along the backside of the bag to form a tube. The bags are cut and bottom-sealed and are the required type of bag for wrap-around printing.

**HEADER PACK:** These are side welded bags with a perforated top lip stapled to a header card. They are used with semi-automatic bag opening machinery or in manual operations. They are packed with 100 bags per header card.

**FLAT SHEETING:** Sheeting is used for wrapping, lining and dividing layers.

**WICKET BAG:** These are side-welded bags with two holes in the lip fixed to a metal wicket. They are used with automatic and semi-automatic bag openers or in manual operations.

**RECLOSABLE BAGS:** Seal Top reclosable bags can be made with or without a tamper evident seal. The use of these bags is preferred when there is the need for multiple entries or repackaging of the bag.

**HEADER BAGS:** These bags are side-welded with a continuous seal along the top width, 2" – 3" below the fold. The bags are loaded and sealed from the bottom. Reinforced headers are available.

**FLIP-TOP BAG:** These are side-welded bags with a fold over lip.

**POCKET BAG:** These bags are sealed in separate pockets along their length for the purpose of multiple unit packaging within a single bag.

**DOOR KNOB BAG:** These are side-welded, staple packed bags with a perforated lip and hole just below the top of the bag.

# CUSTOM ORDER QUOTE FORM

Fax this completed form to (323) 869-3913 and receive a prompt response to your quote request, or use **QuickQuote** for an immediate quote online, anytime. Simply log into [elkayplastics.com](http://elkayplastics.com) with your user name and password and discover just how fast and easy **QuickQuote** makes custom poly bag quotes.

## Ordering INFORMATION

To view Elkay Plastics' complete Standard Conditions of Sale, please visit [www.elkayplastics.com/termsandconditions](http://www.elkayplastics.com/termsandconditions).

Elkay Plastics sells to authorized distributors. For information on how to contact an authorized distributor in your area or to apply to become an Elkay distributor, contact us at **(800) 809-8393** or visit [www.elkayplastics.com](http://www.elkayplastics.com).

## TERMS AND CONDITIONS

**Minimum Order :** \$100 Net (a \$10 small order charge will be added to orders of less than \$100).

**Terms :** (On Approved Accounts) 1% 10 days, Net 30.

**Sales Tax :** Sales tax will be charged unless a current sales tax exemption certificate is on file with Elkay.

**Delivery :** Freight prepaid on orders of \$750 or more for a single shipment to the same destination. Orders less than \$750 are shipped freight prepaid/add or freight collect. UPS shipments are prepaid/add. Additional freight costs that may be incurred for inside deliveries, lift gate, residential deliveries, or sort and segregate activities must be paid by the Buyer.

**Inspection :** Buyer should inspect Products as promptly as practical after receipt. However, unless earlier rejected or accepted, the Products shall be deemed to be accepted 5 days after receipt by Buyer.

**Returns :** Incorrect shipments will be exchanged or refunded after inspection by Elkay personnel if Elkay is notified within 5 days of receipt of Products. Except for custom orders, other returns may be made within 10 days of receipt and are subject to a standard 15%

restocking charge. Returns must be shipped freight prepaid. Buyer must obtain return authorization and shipping instructions from our Customer Care Department before returning Products.

**Product Warranties :** Products are warranted for 90 days from the date of delivery to be free from defects in material and workmanship and to conform to Elkay's published specifications applicable to such Products. Elkay makes no other warranties, express or implied, including without limitation warranties of merchantability or fitness for a particular purpose. In no event shall Elkay's liability for breach of warranty exceed the price of the Product involved.

**Damaged Shipments :** Although Elkay pallet wraps almost all orders to protect them in shipment, damage in transit occasionally does occur. If your shipment is damaged, write the details on the bill of lading, put the shipment aside and notify the freight carrier. It is the Buyer's responsibility to file a damage claim with the carrier promptly after inspecting the shipment.

**Samples :** As an additional service, samples are provided free of charge for most Products listed in our catalog. However, we reserve the right to limit quantities. Samples may be requested via your Elkay sales representative or online at [www.elkayplastics.com](http://www.elkayplastics.com).

**Custom Orders :** Requests for items not found in the catalog can be made through our Custom Manufacturing Department. Refer to page 40 for more information.
