About International Paper Foodservice Business

International Paper is a leading global marketer and manufacturer of paper and plastic single-use packaging for the foodservice industry, partnering with leading brands and distributors in a variety of industries, from quick-service restaurants to hotels. Our paper cups, food containers, plates and accessories are found in foodservice establishments across the country, from one-store locations to large national chains.

We make all of our paper products from trees that come from responsibly managed forests, and our US manufacturing facilities are certified to Sustainable Forestry Initiative® (SFI®), Programme for the Endorsement of Forest Certification (PEFC) and Forest Stewardship Council® (FSC®) Chain-of Custody standards. Our company is committed to improving our footprint, and continuously works towards reducing the environmental impact, with our end of life solutions and through our sustainable products.

Providing exceptional service starts with understanding customer requirements. Our sales, manufacturing and customer service teams are focused on offering quality products and delivering our customer orders on-time and in-full. Our strong focus on innovation allows us to deliver creative products and supply chain solutions that improve operator efficiency, elevate new menu items and enhance the consumer experience, such as our Hold&Go® insulated paper hot cup and our ecotainer® product line, made from fully renewable resources. With a dedicated staff of designers, our Graphics department integrates technical printing experience with creative ability to resolve some of the most challenging graphics.

Ranked #105 on the Fortune 500 list, International Paper is a large, multinational company that continuously invests in new technologies to help us manufacture high-quality materials and products for our customers. The Foodservice and Coated Paperboard Business of International Paper are fully integrated, providing security of supply to our customers. With products being fully produced by a single company, from raw materials to finished product, you can ensure that the end product that goes into the hands of your customer is superior quality.

HOT CUPS

INTERNATIONAL  PAPER

Consumer preferences for hot specialty beverages are growing, and operators are responding with new drinks and upgraded coffee programs to bring traffic to their locations.

International Paper supports this growth by offering a full line of paper cups, lids, sleeves and cup carriers. All of our hot cups are made from premium paperboard and are coated on the inside using either polyethylene or PLA lining – a combination that results in high-quality single use packaging for our customers.

Making a Difference – One Cup at a Time.®

An environmentally sensitive product line, ecotainer® uses a plant-based, Ingeo® (PLA) coating that is fully compostable in commercial composting facilities. By using compostable hot cups and lids, we are decreasing our dependence on petrochemicals and reducing the amount of waste being sent to landfills.

- ☞ Made with fully renewable materials
- ☞ Meets ASTM standard for compostability
- ☞ Certified by the Biodegradable Products Institute (BPI®)
- ☞ Compostable in most commercial composting facilities*

Individually Wrapped Hot Cups

The individually wrapped cup is designed to eliminate concerns around cleanliness for in-room beverage service. Consumers can feel confident opening the seal, knowing that they will be the first to use that cup. The 10oz size fits under standard in-room coffee machines and is stackable to save counter space. This product is offered in both standard and ecotainer®.

Vending Hot Cups

Our paper vending cups are specially designed for easy and ideal dispensing from hot beverage machines. The poker-style "Wildcard" design is unique in that it has different hands of five cards on the side of the vending cups and a randomly selected sixth card printed on the bottom, adding a little excitement during employee break time.

Hot Cup Accessories – Cup Carriers

Cup Carriers are perfect for easily holding multiple hot beverages at one time. The 2-cell and 4-cell carrier options maximize drink stability with built-in cut-outs that wrap around the side of the cup to hold it in place. The sturdy construction and top handle make on-the-go drink transportation more manageable for consumers.

ecotainer®

Making a Difference – One Cup at a Time.®

An environmentally sensitive product line, ecotainer® uses a plant-based, Ingeo® (PLA) coating that is fully compostable in commercial composting facilities. By using compostable cold cups and lids, we are decreasing our dependence on petrochemicals and reducing the amount of waste being sent to landfills.

- ☞ Made with fully renewable materials
- ☞ Meets ASTM standard for compostability
- ☞ Certified by the Biodegradable Products Institute (BPI®)
- ☞ Compostable in most commercial composting facilities*

Cold Cup Accessories – Cup Carriers

Cup carriers are ideal for holding up to four beverages at one time. The 2-cell and 4-cell carrier options maximize drink stability with built-in cut-outs that wrap around the side of the cup to hold it in place. The sturdy construction and top handle allow you to hold several cold drinks without much hassle, making on-the-go drink transportation manageable for consumers.

Popcorn Buckets

Popcorn is one of the most popular food items at concession stands in theaters, sports arenas and local events. Popcorn buckets have a smooth, clay coated surface for printing impactful graphics and a double layer of grease resistant coating for our buckets.
